The Finest "Sweet Nancy" We Have Made To Date

Exceptional Vintage — 1978  
— Extremely Limited Quantities —

This Remarkable Dessert Wine Fermented for 15½ Months at 38°F - A longer time than for any other wine ever vinified in California, we believe.

The flavors and aroma developed during this extremely long fermentation period are even now exceptional and very pleasing to those who enjoy dessert wines. We predict that it will improve with additional ageing in bottle for a number of years, assuming proper storage.

The weather conditions did not allow us to produce any "Sweet Nancy" wine in 1979 or 1980.
